

An **engaging** and **entertaining** speaker whose message resonates with ALL audiences...

DRIVEN TO DO MORE

The story of what inspires Dr. Scott Kjelson reads like a movie script. As surreal as it all sounds, it's the inspiring truth of how a "nobody" became a "somebody"... With the kind of details that take you on a journey which leaves you both exhilarated, and motivated.

LEADERS OF TOMORROW

Dr. Scott's words are those of hope, inspiration, and motivation which enables listeners to know they can overcome their own obstacles and meet goals to better themselves!

Dr. Scott Kjelson

"Success is not based on the status or position held alone, but rather the adversity you overcome to hold and maintain those positions or rise above them."

-Dr. Scott Kjelson

*"Listening to Doc speak really ignited a fire in me. His words gave me the boost I needed to **focus** on my **goals** and reach that next level of professional **excellence**. I can't thank him enough!"*

-Ashley W

OVERCOME OBSTACLES

Doc's words are those of hope, inspiration and motivation which enables listeners to know they can overcome their own obstacles and meet goals to better themselves! His audience leaves feeling empowered to make the necessary lifestyle adjustments for their ultimate success. ***Doc's energy is nothing less than contagious!***

Doc's enthusiasm for improving health states, and providing the true science behind claims, is what has been gaining him so much ground in the health care industry. He believes we live in an era of knowledge and results. He also believes the healthcare industry focuses too heavily on treating symptoms and "sick care" rather than utilizing progressive and preventative measures.

Dr. Scott Kjelson has set out to become THE Doctor who revolutionizes his industry by providing validity, thinking creatively, and establishing opportunities for other healthcare professionals to team up for the sake of the patient's health. Feeling this so deeply allows Doc to be an engaging and entertaining speaker whose message resonates with the audience, whether they are medical colleagues, corporate professionals or young students!

FOLLOW YOUR PASSION

"The reason I am as driven as I am today, is for the simple reason I was, and still am, exhausted with the lack of public awareness. I've watched my own family members live unhealthy lives. That's where it becomes personal. I want to see our society start acting more proactive than re-active. Unfortunately many people seem to feel it costs too much to live a healthier lifestyle. Ultimately, It takes professionals to make the effort to educate and raise awareness of the greener grass on the other side of the road. We're not reinventing the wheel; we're just putting new tread on tires that are already in motion. ***We need to stop putting duct tape over the check engine light, and start treating the causes.***"

-Dr. Scott Kjelson

"Doc", as he is often referred to, grew up poor and struggled through the adversities that come along with that. In addition to the everyday challenges, Doc lost his mother at a young age due to poor health. In hindsight he sees where much of his mother's situation, as well as other family members, could have been controlled by making different decisions along the way. Rather than taking medication to treat the ills, why not be proactive and try to prevent them?! Because of this ***Dr. Kjelson is, and has been, driven to do more, to be more and to share that passion with others!***
